

Returning OverDrive Kindle books

OverDrive Kindle books may be returned early via the Amazon website. Start by clicking on “Sign in” at www.amazon.com.

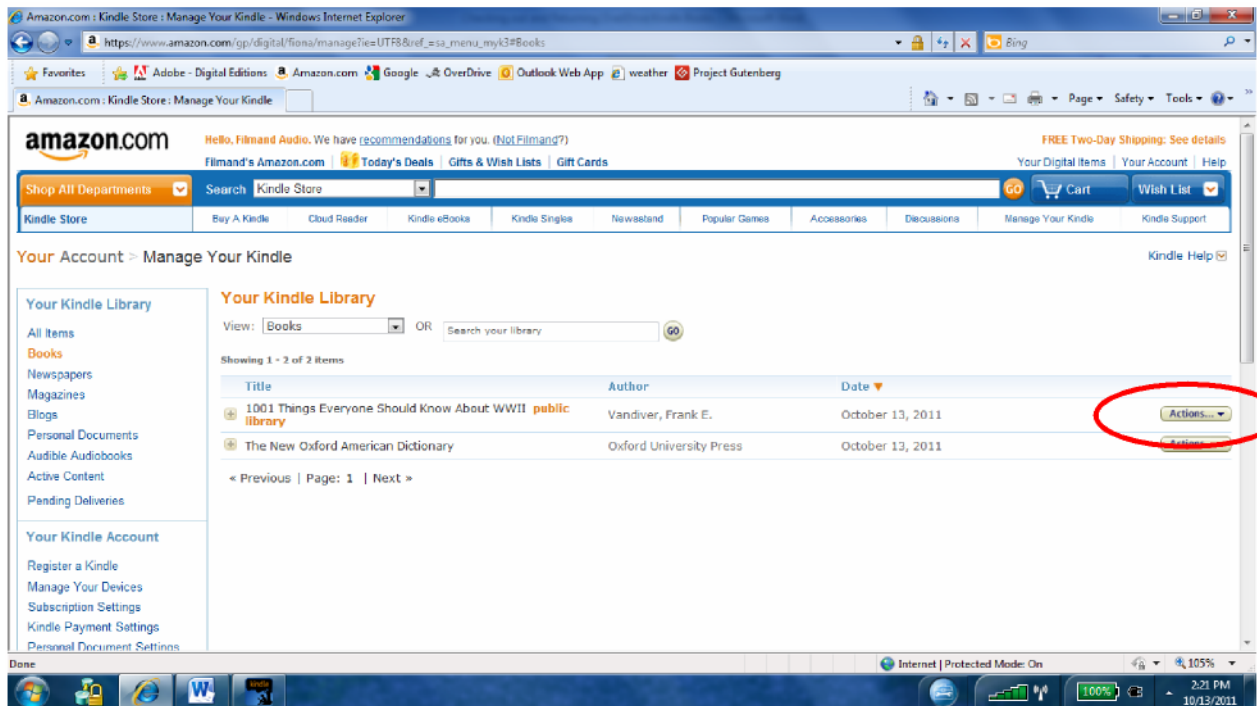

Enter your email address and password and click on “Sign in using our secure server.”

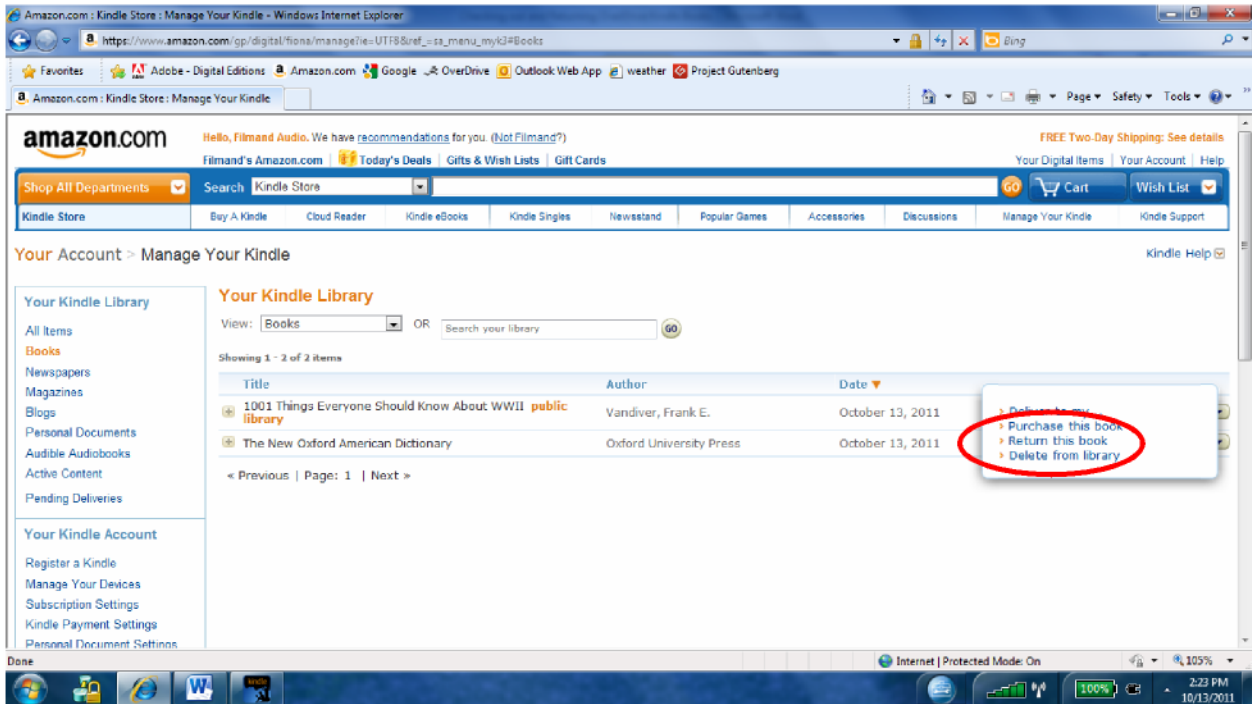

Once you are logged in, look in the upper left for the “Shop All Departments” button. In the list beneath it, you should see a link for “Kindle.” Put your mouse cursor over where it says “Kindle” to bring up the Kindle submenu. Click on “Manage Your Kindle” at the bottom of the list.

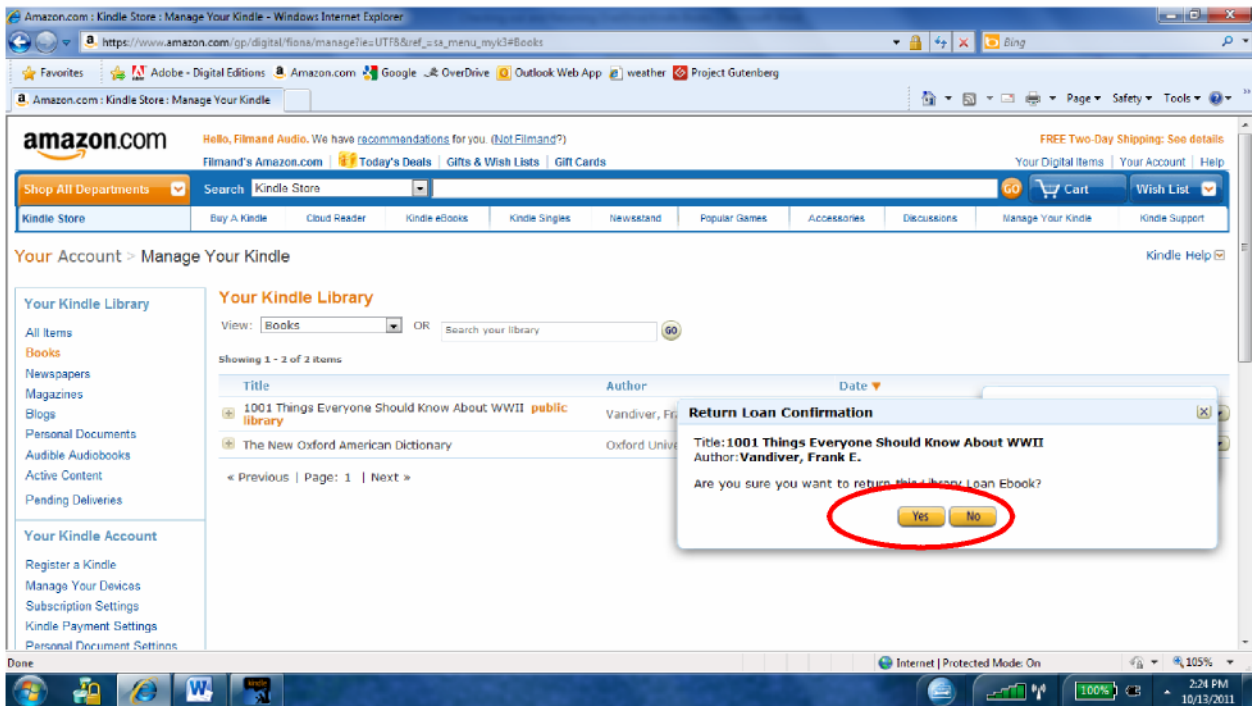

The next screen will show your Kindle library. Look for the “Actions” button on the right side of the screen.

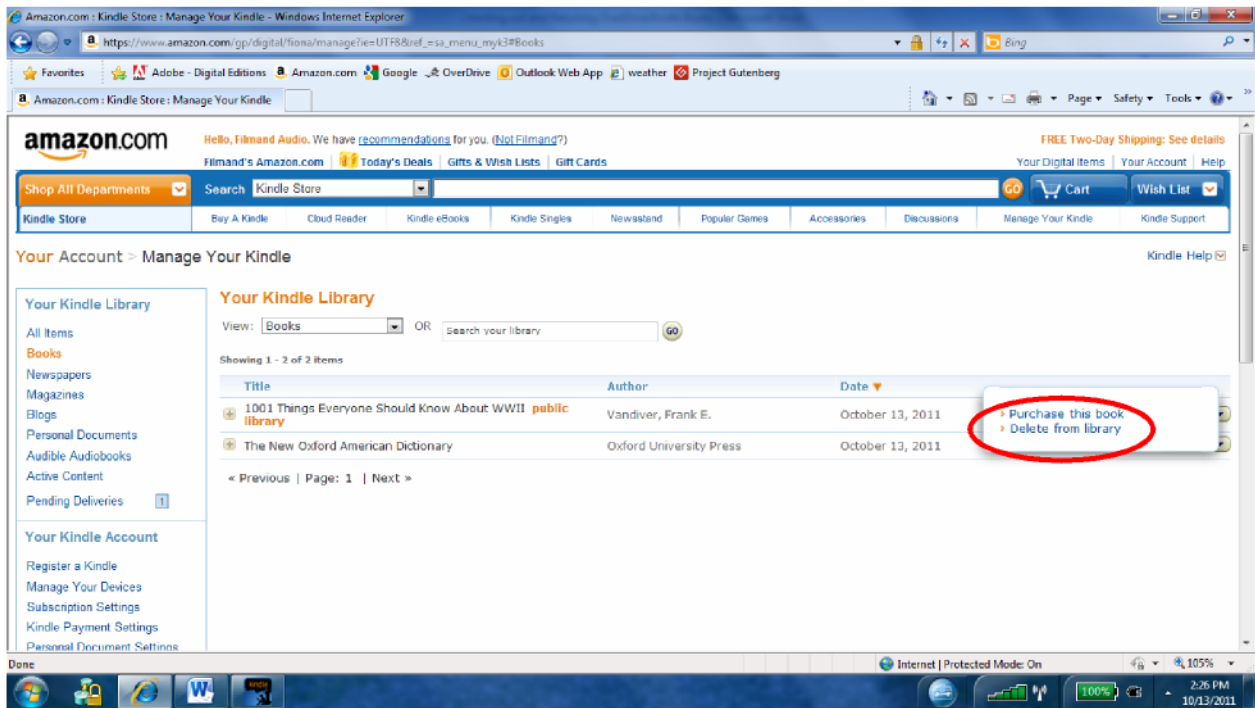

Click on the “Actions” button to bring up a submenu. From this menu, choose “Return this book.”

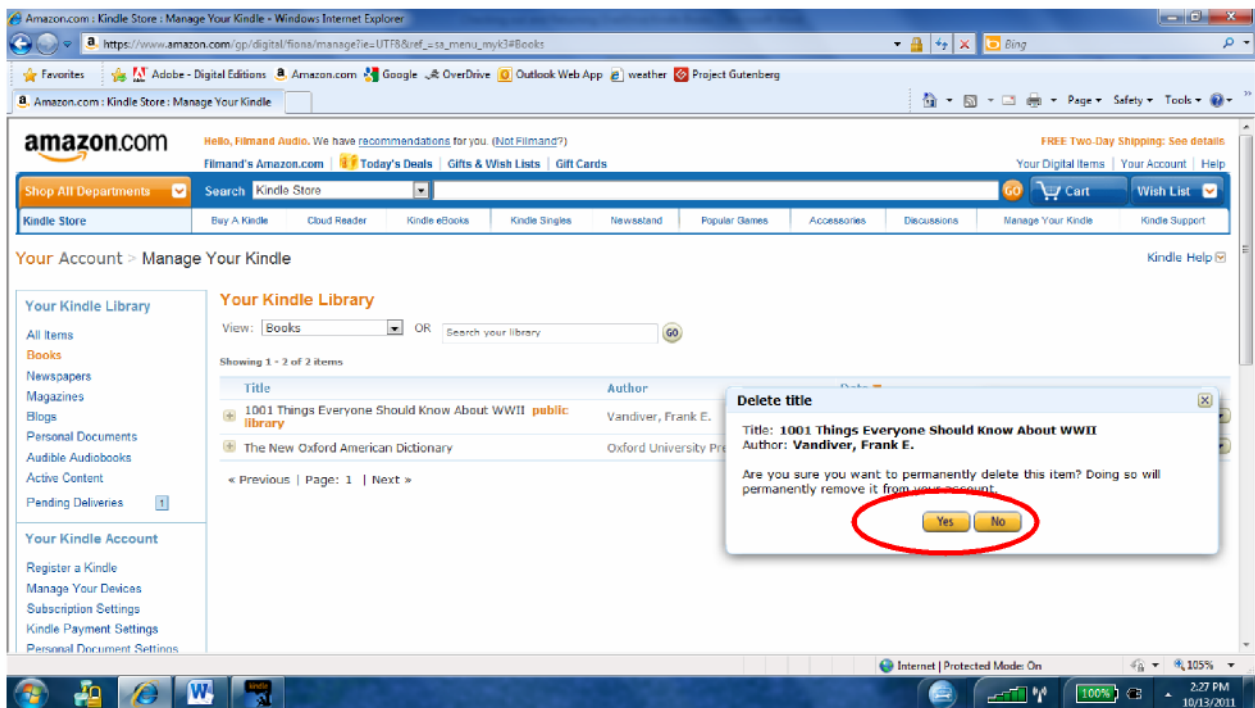

You will be asked to confirm your choice. Click “Yes.”

A brief message will appear stating that the book was successfully returned before the page refreshes itself. After it does, the title may still appear in your Kindle library. To delete it completely, click on the “Actions” button again and then click on “Delete from library.” (Note that you no longer have the option to return the book.)

You will be asked to confirm the deletion. Note that it is not necessary to delete the title after you've returned it – you may want to leave the title in your Kindle library so you can keep track of what you've read, or you may wish to purchase the book later.

A brief message will appear to tell you that the title was successfully deleted before the page refreshes itself again.
